

Pusch Ridge

An original Clawhammer tune by Fred Bradbury
Banjo tuned to Double C, capo 2

A

B

Ending Measure

Pusch Ridge is a section of the Santa Catalina Mountains just outside of Tucson, AZ, and is visible

AZ, and is visible from my back yard. I was sitting on the patio one day trying to figure out "Fortune" when the opening "Galax Licks" led into this original Clawhammer banjo tune.

Play the tune AABB until ready to end it, then use the ending measure. The ascending triplets are consecutive hammer-ons, the 0-2-0 triplet is composed of a hammer-on and pull-off.
